

As you may be aware, there are currently extensive roadworks along Nerang Street in Southport for the Gold Coast Rapid Transit (Light Rail) construction.

At Gullotta Orthodontics we understand that the roadworks can be frustrating for you, especially if you're not familiar with the situation. So here's some information and a map to assist you to get to our practice for your regular appointments.

The best access to our practice is via Queens Street, westbound (away from the Broadwater) or Nerang St, eastbound (towards the Broadwater). Queen St eastbound is currently closed to traffic. When you reach the Nerang St-Queen St traffic lights, turn right into Nerang St (you will now be heading east) and look for a gap in the orange and white traffic barriers where the ORTHODONTIST sign is located.

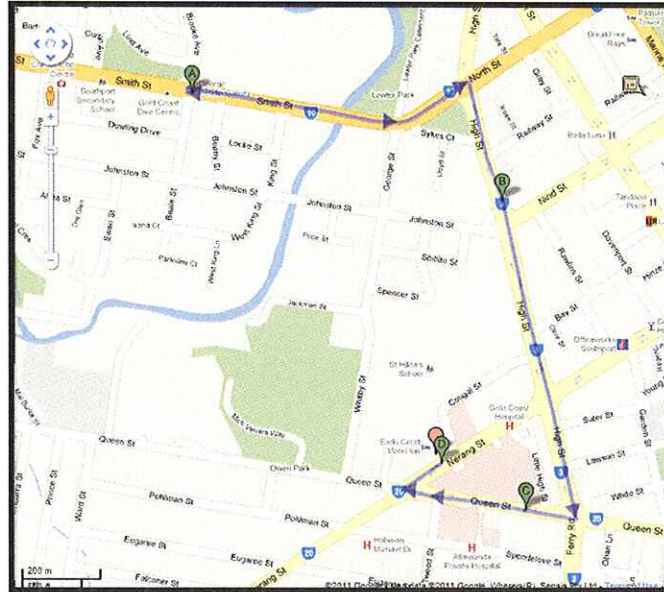

## Look for sign for Orthodontist

- Traffic barriers entries and exits are changing frequently.
- Please look for the below sign and turn left through traffic barriers and into our driveway.
- Please be aware that our driveway is a single driveway which cars will be entering and exiting.

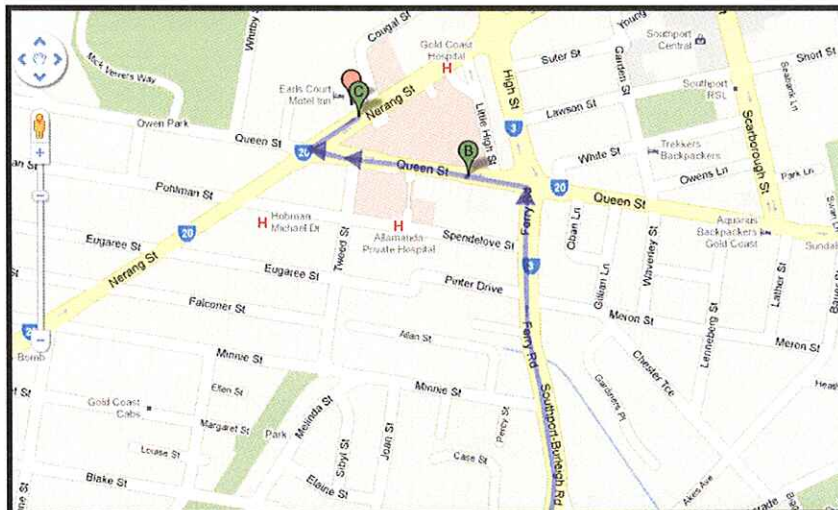

If you're coming from along Smith St, or High St, it's easiest to continue to Queen St and turn right, rather than turning right onto Nerang St because you will not be able to turn right from Nerang St through the gap in the traffic barriers.

## Map for access from Northern Gold Coast

## Map for access from Southern Gold Coast

If you are coming from **Southport CBD** it is easiest to come via Queen Street, westbound, as per map.

After you turn right into Nerang St and are coming **eastbound along Nerang St (i.e. from Ashmore or Nerang towards the Broadwater)** you can enter through the traffic barriers just after the Nerang St-Queen St traffic lights. Look for the sign 'Orthodontist'.

Due to the roadworks in Southport, many of you will also know that we now offer free on-site parking for our patients. As of late November, this parking has been accessible down the driveway to the right of our practice. Due to misuse of our parking area by other motorists we have placed a boom gate at the entrance which can be activated via an intercom on the right side of the driveway. Watch for exiting vehicles coming towards you up the driveway. Stop within arm's reach of the intercom, press the button on intercom, wait for someone to answer, state the patients name, and we will raise the boom gate to let you into to the parking area. When you are leaving, watch for entering vehicles, drive slowly up to the boom gate and it will automatically lift for you to exit.

Finally, please call us if you need clarification on any of the above matters. These roadworks can cause short delays so we recommend that you allow an extra ten minutes to get to your appointment during this time. Please call us if you are having difficulty getting to the practice. We have attached a map showing in blue the entry and exit through the roadworks. Please also let us know if any aspect of this information has not been helpful so that we can amend it if possible.

Thank you for your understanding with this unavoidable inconvenience, and we look forward to seeing you for your next visit.
